FREEDOM OF INFORMATION POLICY

1. Introduction – Freedom of Information Publication Scheme Statement

- 1.1 Under the Freedom of Information Act 2000 (which is referred to as FOIA for the remainder of this document), all public authorities, including academy schools must abide by its terms and should be clear about the information they will make public. This requires the formation of a specific publication scheme, which conforms to the model scheme for schools approved by the Information Commissioner and commits Aylesbury Grammar School to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned, where this information is held by Aylesbury Grammar School.

2. Policy aims, objectives and expectations

- 2.1 The FOIA publication scheme commits Aylesbury Grammar School:
- To proactively publish or otherwise make available as a matter of routine, information including environmental information, which is held by the school and falls within the classifications below
 - To specify the information which is held by the school and falls within the classifications below
 - To proactively publish or otherwise make available as a matter of routine information in line with the statements contained within the scheme
 - To produce and publish methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public
 - To review and update on a regular basis the information the school makes available under this scheme
 - To produce a schedule of any fees charged for access to information which is made proactively available
 - To make this publication scheme available to the public
- 2.2 All written requests for information should be answered within 20 school days of receipt (or 60 days including holiday time whichever is shorter). If this timescale is impractical, it may be that the effort to provide a response will exceed the cost limited provided for in the act in which case the request may be refused. **This must be explained to the requestor within the time limit.** The time limit does not include any time spent waiting for fees to be paid for disbursements (see below) as the response need not be sent until such fees have been received.
- 2.3 The school may make a charge for requests for information under the FOIA. Charges will only cover disbursements (for example photocopying or postage). The school will not charge students or their parents/carers or staff for requests relating to their records nor for a single paper copy of information routinely published. All requests for release of information under the FOIA not covered under the publication scheme must be in writing, either by letter or email, and must indicate who is making the request, their postal address and what information they want.
- 2.4 The school may refuse a request on one of the following grounds:
- It would cost more than £450 to comply (allowing for £25 per hour for work done in compiling the answer plus any disbursement costs)
 - The request is vexatious or repeated
 - The information is exempt from disclosure under one of the exemptions in the FOIA
 - The school also holds information which is not individual but which is not routinely published (e.g. budget information). The FOIA makes provision for this to be made available, but any such request should be referred to the Resources Director (for specific financial requests) or Data & Examinations Manager in the first instance.

- 2.5 Some information which the school holds may not be made public, such as personal information. Any request for such information should always be referred to the Headmaster.
- 2.6 All staff should understand that any request for information submitted in writing is a request under the FOIA regardless as to whether the request mentions the Act. If the information is routinely published, then the member of staff receiving a request (be it verbally or in writing from a member of the public) should either direct the requestor to the school website or arrange for a single copy of the relevant document to be placed at reception for collection. If the request is beyond this paragraph's scope, involves any complexity or will incur cost (e.g. postage) then it should be referred to the Office Manager who will respond to the request in writing.

3. Classes of information published

- 3.1 The publication scheme guides you to information we currently publish (or have recently published) or which we will publish in the future. This is split into 'classes' of information organised into six topic areas:
- a. Who we are and what we do – Organisational information, locations and contacts, constitutional and legal governance
 - b. What we spend and how we spend it – Financial information relating to projected and actual income and expenditure, tendering, procurement and contracts
 - c. What our priorities are and how we are doing – Performance information, assessments, inspections and reviews
 - d. How we make decisions – Policy proposals and decisions, decision making processes, internal criteria and procedures, consultations.
 - e. Our policies and procedures – Current written protocols for delivering our functions and responsibilities
 - f. Lists and Registers – Information held in registers required by law and other lists and registers relating to the functions of the school
- 3.2 These classes of information will not generally include:
- Information, the disclosure of which is prevented by law, or exempt under the FOIA, or is otherwise considered to be protected from disclosure
 - Information in draft form
 - Information that is no longer readily available as it is contained in files that have been placed in archive storage, or is difficult to access for similar reasons
